

GET THE FACTS ON AIDS

IF YOU WANT TO AVOID AIDS

remember that.....

- 1. AIDS is an unmerciful deadly disease.**
- 2. It is not possible to cure AIDS.**
- 3. You can catch the AIDS virus mainly through sex, and also by sharing needles.**
- 4. As for sex, You can protect yourself 100% from AIDS through chastity and faithfulness.**
- 5. You may think that condoms can protect you. Instead it may be your trap.**
- 6. Condoms can not give a sure protection at all.**
- 7. It is very easy to make mistakes in using condoms.**
- 8. It is very difficult to use condoms all the time.**
- 9. It is very difficult to use condoms correctly.**
- 10. Some instructions are impossible for the majority of the people.**
- 11. Too many times condoms break or slip away.**
- 12. Many condoms users got AIDS in the USA.**
- 13. Many condoms users get infected also by many STDs diseases.**
- 14. In PNG it will be worse than in USA.**
- 15. Condoms have proved to be unreliable in reality.**
- 16. It is a joke to say that condoms are safe or safer.**

17. Prudent predictions for those using condoms are as follows:

- ❖ **All those playing around, even though they use condoms, have a very high chance of getting infected within the first year.**
- ❖ **All those playing around for more than four years, even though they use condoms, will surely catch AIDS.**

18. Condoms are always morally bad.

19. Condoms are morally bad also because they create a mentality of promiscuity, which causes the spread of the AIDS virus.

20. Who can you give you strength to be chaste and faithful?

Jesus.

**IF YOU WANT
TO BE SURE TO AVOID AIDS
FOLLOW GOD'S COMMANDAMENT**
